

Reflection from the field of the GEJE Case study

UCL Humanity Students

1. Sachil Boorgula
2. Hooriya Fida-Hussain
3. Sebastian Tod
4. Mafalda Vieira

Associate Prof. Takeshi Koike
Institute for Excellence in Higher Education,
Tohoku University

As part of the Tohoku University and UCL Internship Programme, four students from UCL embarked on a month-long journey across the regions of Miyagi, Fukushima, and Iwate. Along the way, they engaged with diverse communities, connected with people from all walks of life, and immersed themselves in the distinctive spirit of each locale. Let us now take a moment to listen to their stories—stories that invite us not only to reflect and share our own perspectives, but also to inspire ideas and spark innovation for the future.

"Fukushima Field Study on Environmental Radiation and Social Resilience"

Date: Wed, July 9, 2025
